PHP

EDUCATION

UNIVERSITY OF ESSEX
Philosophy, Politics, and
Economics BA
2020 - 2023
Colchester, UK

I am a full-stack web developer with a robust expertise in JavaScript and its ecosystem. With a proven history of delivering high-impact FinTech and e-commerce solutions for globally renowned brands, I combine technical excellence, reliability, and creative problem-solving. My commitment to continuous learning and adaptability ensures that I stay ahead of industry trends and consistently deliver value.

EXPERIENCE

WEB DEVELOPER

Freelance | 2020 - 2021

- Worked as a freelance Web developer (Upwork)
- Mainly worked with such technologies as React.js, SCSS, Figma, and various CMS systems

FULL-STACK DEVELOPER

Scandiweb | 2021 - 2023

- Spearheaded the execution of e-commerce projects for brands such as Puma, Laderach, and Cervera
- Utilized a modern JavaScript web stack, incorporating Next.js, React.js, TypeScript, Redux.js, Node.js, Tailwind, GraphQL, and the Sanity CMS
- Got involved with DevOps, leveraging tools such as GitHub Actions, AWS, Vercel, and Docker
- Addressed security-related matters, working with technologies such as JWT and OAuth2

TECHNICAL PRODUCT OWNER

Scandiweb | 2023 - 2024

- Within the scope of our collaboration with Puma I act as a bridge between strategic vision and hands-on development
- Lead product ownership efforts, translating shared vision into tangible results, prioritizing features and user stories

FULL-STACK DEVELOPER

BTCBIT / Moneliq | 2024 - present

- Lead the Front-end development of Moneliq internet banking utilizing tools such as Next.js 14, React.js, Zustand, Tailwind, JWT, Hawk & SRP authentication
- Worked on smaller scale Back-end tasks for Moneliq internet banking using Java Spring
- Helped with blockchain integration at the BTCBIT crypto exchange using Ethers.js and Solidity
